### Busy busy busy!

Even though I have been very busy, there is not a great deal to report.

There is one important notice from Central Council that I have included.

### Central Council Notice !

To all members,

As many of you are aware, PHRF-LO made a number of changes that affected many of your certificates.

The largest (and most contentious) change being to the "Delta" between the Flying sails and Non Flying Sails handicaps.

Central Council would like to assure you that we are aware of many concerns and fully intend to review each and every one of them when we reconvene in the fall.

In light of this, we would encourage anyone with concerns to [contact us](#) or [post them on the PHRF-LO Forum](#) for us to review at that time. A formal Grievance is welcome but not necessary as we appreciate your input to help us focus on the classes that need to be brought to our attention.

We will be adding them to our [Review List](#) as they are received.

Your continued support is greatly appreciated.

### Handicappers Worksheet

#### A Manual in the Making

I have been slowly working on a guide for users who are struggling with the Handicapper's Worksheet.

You will find it once you have logged in:

Select "Forms" from the Handicappers menu and then choose "Handicapper Worksheet", "**READ MORE**".

You will see links that say: "(click here for instructions)".

So far I have included instructions for the "Initial Assignment" and "SP Estimator" tabs. I will continue to work on the others.

### Addresses Needed

Now that we no longer print the certificate holder's address on their certificate, I have been receiving some question about whether it is necessary to submit it with an application.

The answer is YES !

I will continue to use this information to determine if we have an owner in our database already. Thus reducing the number of records in my files.
