Another season over

It was very busy this year, with 187 new certificates issued and many, many changes.

The Districts were also very busy with many new handicaps and a few appeals.

My next task is to process all your race results for analysis and presentation at the AGM.

Race Results Deadline

Yes, we are now looking at processing your race results.

The Deadline for submitting your results this year has been changed to:

December 15, 2009

The deadline has been moved up from December 31st to accommodate the earlier AGM date.

Please notify whoever is responsible for submitting your results to us to ensure that they are received in time to be included in this year's analysis.

REMEMBER: By submitting your results, you will be given a credit toward your club dues invoice.

Annual General Meeting

January 9, 2010

As decided at the last AGM, we will again be holding our meeting at the Toronto International Boat Show.

More details to follow.

Please mark your calendars!

Spring Training Seminar

As you all know, each year we offer a Spring Training seminar. Last year we invited Jim Teeters from US Sailing to speak to us. In previous years we have had boat designers, like Steve Killing, Sail Makers, like Al Declerque and our own Central Council.

WHAT WOULD YOU LIKE?

We would love to get suggestions or comments on what you would like to see at the next Spring Training Seminar.

Would you like:

- Sail maker
- Boat Designer
- Olympic Class Sailor
- Sail measuring instructions
- Any other suggestions related to handicapping or sailing.

Please let me know by November 14th so that your suggestions can be discussed at the upcoming Executive meeting.

Videos

- 2 New videos are now available:
- 2008 Spring Training Seminar
 - 2009 AGM Portsmouth presentation

Movable Appendages

On March 28th the Central Council discussed issues regarding "Movable appendages".

It was agreed to include a statement (page 22) and new abbreviations (page 45) in our handicapper's manual.

YOUR INPUT IS NEEDED

Central Council is asking you to identify currently handicapped classes that have "movable appendages" in order for us to update our records.

We will need to know:

Class of Yacht and the type of keel.
E.g.: Articulating or canting with or without dagger or canard.

Please refer to page 45 of the handicapper's manual for new abbreviations.

Future Projects

Web Site Enhancements:

We will be looking at upgrading our web site to a more current version of Joomla

We will also be looking at possibly having an on-line application form and race results submission form.

DMS: PHRF Data Management System

Continued work on improvements to the existing program is being reviewed.

If you have any suggestions or requests, please contact the administration office as soon as possible. All suggestions will be raised at the Executive meeting in November.

If you are interested in helping with any of the above, please let us know.
